# Cleanroom Touch Keyboard

## Highlights

A touch-sensitive cleanroom keyboard solution designed for sterile environments such as cleanrooms, life science facilities, pharmacies, and laboratories. The completely smooth glass surface without crevices eliminates contamination points and allows thorough disinfection – again and again. Ideal for applications where standard keyboards cannot meet hygienic requirements.

A touch-sensitive cleanroom keyboard solution designed for sterile environments such as cleanrooms, life science facilities, pharmacies, and laboratories. The completely smooth glass surface without crevices eliminates contamination points and allows thorough disinfection – again and again. Ideal for applications where standard keyboards cannot meet hygienic requirements.

- Glass surface in ABS housing
