T100 Mobile Tablet Stand

Highlights

Discover the T100 Mobile Tablet Stand, a mobile workstation that brings your cleanroom tablet directly to where work happens. Designed for full cleanroom compatibility, it allows operators to access SOPs, batch records, and process monitoring exactly at the point of use while maintaining hygiene and ergonomic operation.
When paired with the Blue Line CleanTablet, the T100 Stand provides a fully mobile workstation that supports digital workflows throughout the cleanroom. Operators can move the tablet between stations without interrupting their work, ensuring that documentation, monitoring, and quality systems are always within reach.

T100 Mobile Tablet Stand

The T100 Mobile Tablet Stand is built around a standardized stainless steel tablet mount, allowing for consistent deployment across multiple workspaces.

Optional accessories let you expand functionality including keyboard support, scanner integration, and continuous tablet charging, creating a complete mobile workstation wherever it is needed.

Smooth surfaces and cleanroom-compatible materials make cleaning and disinfection quick and reliable, keeping your workspace safe and compliant.

The tablet mount at the core of the T100 can also be used with.

- Adjustable pitch wall mount.
- Gas arm with full flexibility.
- Fixed pitch 10 degrees square tube.
- Fixed pitch 10 degrees square tube with tablet charging.

This modular design lets you deploy tablets as mobile stations, wall installations, or articulated workstations using a single, standardized interface.

- Mobile workstation for CleanTablet
- Flexible placement across production, lab, and quality areas
- Ergonomic adjustable tablet angle
- Cleanroom compatible design for D to B class environments
- Modular design for mounts and accessories
